

BEST FREE PRACTICE QUESTIONS (PMP® & CAPM®)

PMBOK® Guide 6th Edition

PMBOK, PMP, and CAPM are registered marks of the Project Management Institute, Inc.

**PROJECT
PREP**
projectprep.org

This is our selection of the best free practice questions on the web. (They are in addition to the free tests in our “Prep Pack.”)

As a reminder, the most important study activity is to practice lots of questions from a variety of reputable training providers and to ensure that you take several full-length practice tests. Period. We hear that feedback again and again from test takers. It truly separates those who pass from those who fail. (And let’s be honest – the exam is expensive, so it is important to pass on the first try.)

For a moment, let us stress the underlined phrases above: lots of questions, a variety of reputable training providers, and full-length practice tests. The more questions you practice, the more your confidence will grow. And as you practice those questions, carefully review those that you missed. Also, in regards to “variety,” just like you would diversify an investment portfolio to minimize financial risk, you should diversify your study materials to minimize your exam failure risk. In other words, use resources from more than one training provider. (That includes using more than our materials.) Also, as you are probably aware, there are thousands and thousands of free practice questions on the web. It doesn’t mean those are good questions from “reputable” providers, though! Finally, it is important to take several full-length practice tests to build your exam endurance. If not, you will likely burn out in the middle of your actual exam.

Provider	Questions	Format	Answer Explanations?	Registration Required?	Direct Link	Comments
Project Management Institute (PMI)	200	Website	Yes (after each question)	Yes (PMI account)	https://bit.ly/pmi-test	These are actual questions from previous exams – but they are very difficult, so don’t get too discouraged, if you don’t do as well as you hope.
PM PrepCast	120	Website	Yes (after the exam)	No	https://bit.ly/prepcast-test	This test is used by many test takers. It has a timer, so you can monitor your speed. It also allows you to mark questions for later review.
Oliver Lehmann	100	Website	No (only PMBOK references)	No	https://bit.ly/oliver-test-1	Oliver has been a trusted trainer for many years. His test also has a timer, so you can monitor your answering speed.
Oliver Lehmann	200	PDF	No (only PMBOK references)	No	https://bit.ly/oliver-test-2	If you are looking to print a test to carry with you and make notes, this is a good option. (It is over 100 pages, though! You could try to print two pages on each sheet to shorten it.)
Edwel Programs	75	Website	Yes (after each question)	No	https://bit.ly/edwel-test	Many of these questions are shorter than those above, but they challenge your understanding of various concepts and definitions.

These questions are in addition to those in our free “Prep Pack” at projectprep.org.

We also include access to an exam simulator in our training courses.
